SAFETY & SECURITY RECOMMENDATIONS AND ALERTS

SFPD AND SAFE "BE PREPARED IN 2012"

To maximize your personal safety, take a minute to plan and prepare for safety before leaving your home.

- Limit your valuables (identification and money) by carrying only what you need for the day. If you must carry large sums of money or personal items, consider placing them close to the front of your body and conceal them under clothing or in a fanny pack.
- Protect your laptop computers from theft by transporting them in a nondescript bag. Standard cases designed specifically for laptops clearly portray the contents, making it an easier task for the thief to spot in a crowd.
- Never leave your valuables unattended.
- When on the street, be ALERT and AWARE at all times. Keep good eye contact with the people around you. Walk with confidence and purpose. Most victims will be targeted because they appear not to be paying attention to their surroundings.
- A handbag or book bag with a strap should not be worn across the body. It should be carried under the arm and released if grabbed. This will prevent your body from being pulled to the ground in an assault.
- Have your cell phone easily accessible to you in case you need to call 9-1-1. Keep your cell phone fully charged at all times.
- It is a good practice to let another person know your itinerary for the day and your expected time of return.
- There is safety in numbers. Make every effort to walk with others when leaving a building or location. Walk in well traveled, well lit streets. Do not take short-cuts through parking lots or

alley ways.

- ☑ Get to know the stores and public buildings that are along your walking routes. Build allies in the community where you live and work you never know when you might need to call on them.
- ☑ Digital music players are a common target of thieves and robbers. Be wise about where you choose to use it when in public. Wearing headphones and ear buds greatly reduces your ability to hear and distracts you from potential danger.
- ☑ If taking public transportation, have your money or Fast Pass ready. Do not fumble with your wallet; you might draw attention to a pickpocket.
- ☑ Never discuss personal information (money, account numbers, etc.) near strangers. There is a good chance that someone might overhear your conversation and act on the information.
- ☑ ATM transactions should be made inside a store or at one that is well lit and visible. Shield the keypad while you input your code. Have your card ready and do not count or display your money. Put your money in pocket or purse immediately. Take your receipt with you.
- ☑ Trust your instincts. If you feel uncomfortable or threatened by another person (s), seek help immediately. A whistle is a great device to have when you need to call attention to yourself.
- ☑ Protect your vehicle from theft. Always lock your doors and glove compartment. Never hide a spare key in your vehicle.
- ☑ Never leave valuables (GPS system, laptop computer, school equipment, cell phone, digital music player, coins, CD's, clothing, jewelry, wallet, etc.) unattended in the car, or unattended in a café or coffee shop.
- ☑ Whenever possible, park your vehicle in a well lit area with plenty of walking traffic.
- ☑ Activate your anti-theft device(s) prior to leaving your vehicle.
